Surface color	Gray	Shape	Square
Water Protection class	IP44	Gwarancja	2

PRODUCT DESCRIPTION

Stair lamp by Polux , with a square shape and gray color, is a modern product made with attention to every detail. The staircase is made of high-quality aluminum, which ensures its very high mechanical resistance and resistance to dust and water penetration (IP65). Flush-mounted lamp has an integrated LED light source with the power of 3W , luminous flux 20lm and neutral white light color (4000K). Thanks to this, the lamp can also be used outdoors : on the stairs leading to the house, gazebo or garden. A recessed luminaire will beautifully illuminate the stairs while creating a magical atmosphere. The square lamp will certainly decorate any place where it will be installed, ensuring long and trouble-free operation. Technical specification Product type: Stair light
