PRODUCT DESCRIPTION

Ceiling luminaire of the brand LUMILED mounted on plaster. The luminaire is adapted to work with LED bulbs with GU10 socket with a maximum power not exceeding 35W . Luminaires from the AMAT series are intended for indoor applications. The lamp is ideally suited to the lighting of the kitchen, hall, corridors or office rooms. The luminaire is made of high quality aluminum, which is resistant to corrosion and is painted white. It is possible to control the direction of the light source in the fitting. The set includes a GU10 socket socket that allows you to mount the bulb in it. Beautiful, minimalist design makes the luminaire fit into almost any interior arrangement.
