### PRODUCT DESCRIPTION

Are you thinking about renovating or refreshing your apartment? Start by replacing the lighting with the extremely popular now, but also the timeless halogen luminaire! Square ceiling luminaire made of black slightly translucent glass which hides in on its basis, the mirror pane is an innovative product that fits all interiors in a modern and minimalist style. Additionally, installing a luminaire of this design adds a bold character, expressiveness to the interior, and makes it very elegant and modernist. Halogen glass frame with slightly bevelled edges will delight even the most demanding customers. Thanks to its design, specifically the mirror pane covered with black glass, it makes the room optically larger, more open and brighter. Additionally, it makes the interior luxurious, full of refined splendor and class. With the use of appropriate bulbs, it will perfectly emphasize the value of furniture in your apartment. It fits perfectly with the suspended ceiling - a very recognized architectural addition.
