PRODUCT DESCRIPTION

SINGLE-PHASE busbar in black color 1m made of high quality alloy aluminum is a modern solution for your interior. Designed for suspended and surface mounting on the ceiling or wall. Rails will allow you to adjust the position of the headlights without disconnecting the power supply. The busbars provide unlimited possibilities of interior arrangement, such as shop windows and shelves, conference rooms, offices and other modern interiors. The set with the rail includes a power supply module that allows you to connect the busbar to voltage 230V.
