

**Tape LED 72W 300LED SMD 5050
CRI>80 IP20 RGB - Multikolor 5m**

SKU: LEDTASMI1515

EAN: 5902686623243

Availability: 94

Ship time: 24H

TECHNICAL DATA

EAN code	5902686623243	Brand	Lumiled
Napięcie [V]	12	Moc [W] / m	14,4
Długość taśmy [m]	5	Power [W]	72
Szerokość taśmy [mm]	10	Rodzaj / Typ Diody	SMD 5050
Ilość diod LED	300	Wskaźnik oddawania barw CRI [Ra]	8080
Number of work cycles / starts	100000	Lifetime (hours) [h]	35000
Optimum operating conditions [°C]	od -20 do + 40	Ignition time (seconds) [s]	Instant
Certificates	CE, RoHS	The color of the light	RGB
Wodoodporność taśmy [IP]	IP33	Energy class - old classification	A+
Energy class - (EU) 2019/2015	F	Gwarancja	3

PRODUCT DESCRIPTION

Professional LED strip is a high-quality strip produced thanks to the selective segregation of LEDs due to their flux and light color. It is characterized above all by high flexibility, so it can be used in places where the installation of other light sources is difficult. Unlike cheap tapes, which are mainly so-called production rejects, our professional tapes ensure the same color repeatability (maximum difference of about 10%) and are made on a double-thick PCB substrate made of high-quality copper, which is guaranteed by the power consumption by the manufacturer. The product is characterized by the highest quality of workmanship, making it ideal for the implementation of lighting installations requiring a reliable and durable light source for many years.
