LUMILED®

TAPE LED 24W 300LED SMD 2835 CRI 80 IP65 cold 5m

SKU: LEDTASMI1350

EAN: 5902686623144

Availability: 0

Ship time: Call to ask

TECHNICAL DATA

EAN code	5902686623144	Brand	Lumiled
Napięcie [V]	12	Strumień świetlny [lm] / m	432
Strumień świetlny [lm]	2160	Moc [W] / m	4,8
Długość taśmy [m]	5	Power [W]	24
Szerokość taśmy [mm]	8	Rodzaj / Typ Diody	SMD 2835
Liczba diod LED / m	60	Ilość diod LED	300
Wskaźnik oddawania barw CRI [Ra]	8080	Number of work cycles / starts	100000
Lifetime (hours) [h]	35000	Optimum operating conditions [°C]	-25°C + 60°C
Ignition time (seconds) [s]	Instant	Certificates	CE, RoHS
The color of the light	Zimna	Wodoodporność taśmy [IP]	IP65
Viewing angle (°)	120	Gwarancja	3

PRODUCT DESCRIPTION

 Professional LED strip is a high-quality strip produced thanks to the selective segregation of LED diodes due to their flux and light color - Cold 6000K. It is characterized primarily by high flexibility , thanks to which it can be used in places where the installation of other light sources is difficult. Unlike cheap tapes, which are mainly production rejects, our professional tapes ensure the same color repeatability (maximum difference approx. 10%) and are made on a double thickness of the substrate PCB made of high quality copper , which is guaranteed by the power consumption specified by the manufacturer. In addition, the tape was covered with a special gel - (waterproof) , thanks to which it meets the IP65 waterproof standard. This means that the LED strip offered at this auction can be successfully used in places with high humidity, such as a bathroom. The product is characterized by the highest quality , making it ideal for the implementation of lighting installations requiring a reliable and durable light source for many years.
